WICHITA, KANSAS: SATURDAY MORNING, MARCH 11, 1899

And a Half Appropriated by the Fifty-Fifth Congress.

MIGHT HAVE BEEN LESS

Had There Been No War With Spain to Pay For.

MIGHT HAVE BEEN MORE

If the Nicaragua Canal Bill, For Instance, Had Gone Through -- A Prosperity Administration.

Washington, March 10.-Availing himself representatives previous to the adjournment. Chairman Caunon, of the committe on appropriations, has prepared for the Congressional Record a more extended statement of the appropriations made by the Fifty-fifth congress than he made the day after the adjournment. He places the total appropriations for the entire congress at \$1,566,890,916, and the appropriations authorized for future congresses under the contlinuing contract system for buttleships, river and harbor improve ments and poblic bulldings at \$77,090,000 The total appropriations made at the last registion Mr. Cannon places at \$63,683,400, showing an apparent requestion; of \$213. 573.56 below the appropriations of the preceding session. Mr. Cannon attributes this reduction to the extraordinary war expenses of the preceding sussion. Of the total appropriations of the congress he says the sum of \$80,500,000 is directly chargeable to the war with Spain. He thus shows that the ordinary expenditures for the two years covered by the congress were \$1.044,589,271, and this sum exceeds the total appropriation of the Fifty-fourth congress by \$39,746.55s. This excess is accounted for as follows: Por payment of pensions, \$3,975,200; for the postal service to meet increased demands of commerce, \$18.819.581; for river and haring new ships, \$4,000,000; for beginning the work of the Twelfth census, \$1,000,000; for the Paris exposition, \$1,210,000; for new public buildings, \$5,000,000; for payment of isdements against the government under Institute eligibus. \$2.700 fee. Torail, \$40.297.576. Mr. Cannon congratulates congress and for the "reasting" process, but as the the country upon this showing and upon the fact that notwithstanding the war, close attention was given to the ordinary ragua carral, which the senate attempted | ready for the beef. After witnessing the to get the mile in commercion with the sundry civil appropriation bill, as an instruction of a const along the Nicaragua route, and under such conditions it would spadeful of earth and began actual coneraction, to acquire by treaty from Nich-ragua and Casta Rica the territory where-

To this remark he adds the following: "Such legislation would have dejayed and conharraceout the construction of an leti ford to enter upon this great work unti-It has accounted by treaty a zone of terri funntely the house of representatives be islation and th contest between the sen are and home resulted finally in the only propriation of a million deliars to enable congress this result with his recommendis-

The ogether with the increase of taxonic cofficilentally with the incoming of the present administration and the Pitty-fich

In conclusion, Mr. Cannon declines to ture legislation, saying: "I profer rather to await toe logic of events and the full information that will doubtless come, as total number of deaths reported to the I hope, between now and the organization adjutant general between May, 1888, and

would, and would not if it could, part with he territories acquired from Spain by the treaty of peace or shirk its duties and esponsibilities touching them."

FOR COALING STATIONS \$400,000 Authorized to be Expended Under the New Naval Act. Washington, March 19.-Under the naval

appropriation bill the bureau of equipment authorized to expend \$60,000 for coalg stations at different points where they may be desired. The location of these stations is wholly in the discretion of the ecretary of the navy, but he will no loubt be guided by the recommendations f Rear Admiral Bradford, chief of the ureau of equipment. The admiral has yet made any recommendations, but s known that he believes there should be ome good coaling depots at Manila and San Juan, Porto Rico, also at Guam. Be ides these he believes there should be a very large coaling depot in the vicinity f Shanghai, China, to supply the United tates vessels crulsing in the North China ea and in Japanese waters. It is also robable that a coaling station and depot ill be located somewhere on the Maine oast. There is no such station north of apo Cod and naval officers have reportd the need of one above that point. Portsmouth, N. H., is being urged as such a station but some point on the Maine coast sems to be preferred, which can be navy. There is water enough at portsmouth but the channel reaching the naof the privilege accorded by the house of | val station is somewhat difficult for large

MAKING CANNED ROAST BEEF Beef Court Watches Every Detail of the Process.

Chicago, Ill., March 19.-The court of inquiry resumed its work regarding beef today by continuing the investigation of processes of preparation at the stock yards. Several more of the packing ouses were inspected, most of the tim seing spent in examining the methods ine of the companies which deals exclusively in cannel goods. The various stages from the killing of the beef to the labeling of the can were witnessed. After oning an animal killed, the court followed the carciass to the refrigerator rooms and from there to the department where the must was out into the proper size for canning. Much information was obtained a o the character of the meat used for inning purposes. General Davis was the chief loquisitor, the other members of the court being content to simply watch the various processes. From the cutting room the meat was taken in large iron carts to the cooking room, where it was boiled. Twenty minutes is the time alliswed for this process, and when the time had expired the beef was taken from the large vates and carted into the canning room. Dr. Bigetow, who is with the cour as an expert, got samples of the extracwhich remained in the vat and will examine it to determine the quantity of nutriment it contains. The canning room was next inspected. Here the beef was cut into smaller pieces and thrown into a residue machine, through which it nasses nto the cans. The mext was then ready

stance of the success of this waterful.

O'clock tomorrow morning. Three army reading when a native slipped up benind explanation of his condust and a definition of the understanding reached between him it was added, had given Great Britain a name on the part of the bound. CLASHES WITH SOLDIERS

Gomez Accused of Conspiracy -- The "New Cuban Navy."

Chicago, March 10 .- The Tribune tomorrow will print the following special correspondence from Porto Rico from a Trib-

San Juan de Porto Rico, March 1.-The real situation in Porto Rico is not understood. People in the states generally rereached easily by the large vessels of the gard Porto Rico as a sort of haven of peace. The war department has just requested of General Henry that he immediately report how many regular troops he could spare from the island. The 1s7th, New York started home tast Sunday. The gular regiments that remain are so scalered that in many places where there is coessity for a strong force only a coral's guard can be mustered, and termories where there are continual mutterings and the greatest evidence of disconor at American rule are unguarded

General Henry is in a dilemma. He has only three regiments of troops-the Elev-enth infantry, the Nineteenth infantry and the Fifth cavalry-and two batterles of the

Fifth heavy artillery, "I need twice the troops I have," said ne general at his residence in Sun Juan. Because of the easy victory of our troops ere in the war, and the apparent friendness of the natives to the American sol diers when the invaded the island, a notion prevails in the states that there is littie necessity for a strong force to maintain order in the faland. The idea is

The conditions here are alarming. These people have been given every apportunity ut they have thrown them aside. They are clamoring now for local self-govern-ment. They are no more fit for local selfstrong military force.

vengeance upon the natives, and especially on the nutice police, for acts of violence that are continually committed against the troops. At Caguay, a small town in the Juan, a soldier of the 187th New York was murdered last Saturday in a manuer that officially denied. Another secret session, edge as to the manner of getting the cans illustrates the treachers of the natives, though it is said there was no quorum, ready for the beef.
